Rodriguez and Sophie Barajas

What is line.do?

It's a web where you can discover stories through timelines.

You can also tell your projects and histories.

There you can find or create all kind of timelines.

How to use line.do

1° - You login with facebook or create an account.

If you are going to login by facebook you only have to get in your facebook profile.

If you want to create a new account you only have to write your e-mail, name, surname and password.

How to use line.do

2º - To create a document you click in the +.

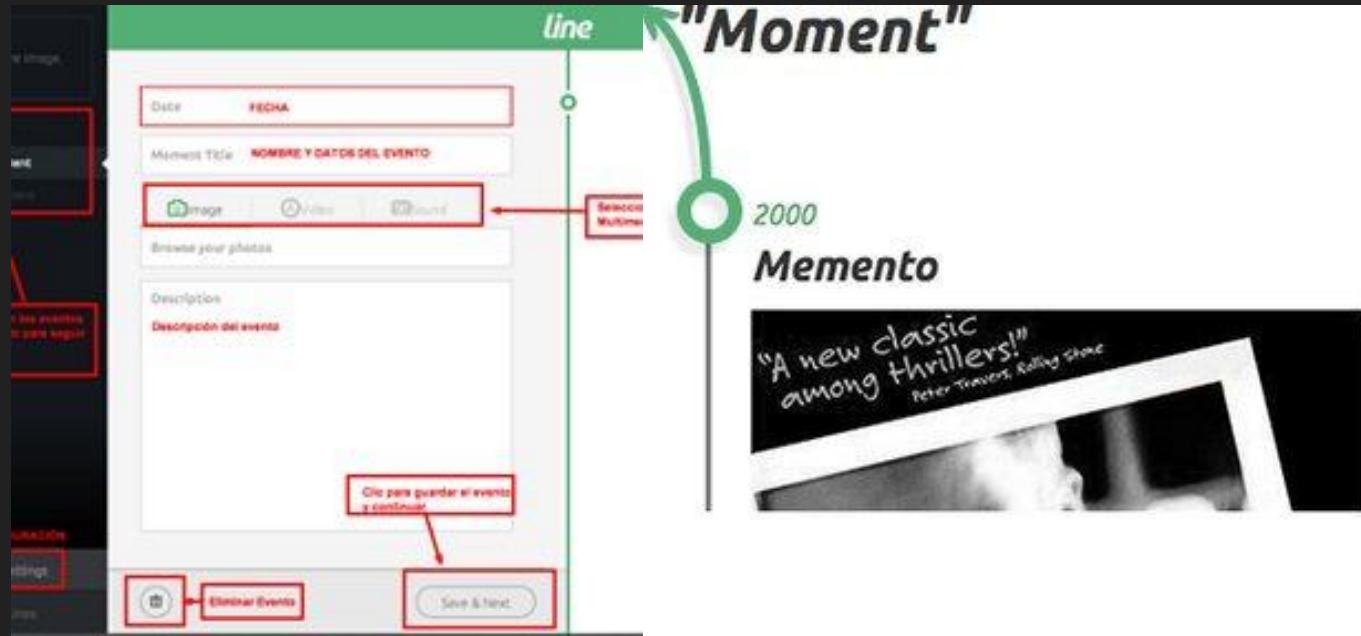

In the first place you put a title and an image in the background.

After, under the title, you write a little description and you classify y document in a category.

The screenshot shows the 'line' document creation interface. At the top right, there are 'Preview' and 'Publish' buttons. The main form area includes a background image placeholder with the text 'Click para añadir una imagen de fondo' and an 'add cover image' button. Below this is a 'TÍTULO' label pointing to a title input field with the placeholder text 'Type your title here'. Under the title is a 'DESCRIPCIÓN' label pointing to a description input field with the placeholder text 'Your little description comes here'. At the bottom, there is a 'Select Category' dropdown menu with a 'Seleccionar Categoría' label, and a 'Save' button with a 'Click para guardar y continuar' label.

How to use line.do

3º - The most important information in this website is the date and to give that day a title. You have to put the date when the information you are writing about happened.

How to use line.do

4° - The presentation must continue an order, from the beginning till the end.

The line can be used to tell any type of story. You can tell your holidays, the biography of a celebrity or even the list of your favourite songs of the year, the possibilities are limited.

How to use line.do

5°- With line.do you can create a lot of timelines very easily; there aren't limits. The only thing you have to use obligatory is the date format; nevertheless, there aren't limitations with regards to them. For example, we can write "09/12/216", "some years ago" or "nowadays".

The timelines can be created about a lot of subjects with some contents: texts, photos, music or videos.

To upload the videos from youtube or similar platforms, we only have to copy and paste the link of the video.

How to use line.do

6°- We can delete any timeline created from our profile; we put the mouse over the element to edit, delete or watch a preview.

7°- Using the arrows attached to every moment we can move the elements along the line. If you have forgotten to add a moment in a part of the temporal space, you only have to press “+” between the different moments to add it easily.

How to use line.do

8°- If you don't want to create an account, don't worry; you can surf any Line.do account or share a created line.
